

# PAPA LIGHTS A FIRE AT NFPA'S 2024 CONVENTION IN ORLANDO

UNIVERSITY OF ALASKA FAIRBANKS

WORLD TRADE CENTER BUILDING 7

U.S. GOVERNMENT

## PETITION TO THE NATIONAL FIRE PROTECTION ASSOCIATION (NFPA)

### **Request For Formal Review:**

*We, the undersigned, care deeply about firefighter and public safety.*

*We respectfully request that the National Fire Protection Association (NFPA) perform a formal review of the collapse of WTC 7.*

*The purpose of the NFPA review is to consider both the NIST Report and the UAF Report, and to determine the actual cause of the collapse so that the national fire codes and standards remain up-to-date, accurate and reliable, in the interests of firefighter and public safety.*

*Specifically;*

*If WTC 7 collapsed from "normal office fires" -*

*then the appropriate codes and standards, related to high-rise firefighting tactics, construction and fire safety systems, need to be reviewed and updated in order to reflect the new potential risk of sudden and complete collapse of Type-1 constructed buildings by office fires.*

*OR*

*If WTC 7 collapsed from something other than fires -*

*then, in order to clear up the confusion, we owe it to the public and the fire service, to dutifully declare that we have determined that fire was not the cause of the collapse, and reassert that the current national fire standards related to high-rise firefighting tactics, construction, and fire safety systems are accurate and trustworthy as written.*
